

# Ashby Arrows Daily Bulletin

## Thursday, February 4th, 2021

### On This Date in History:

- On February 4, 2004, a Harvard sophomore named Mark Zuckerberg launched Facebook, a social media website he had built in order to connect Harvard students with one another. By the next day, over a thousand people had registered, and that was only the beginning. Now known simply as Facebook, the site quickly ballooned into one of the most significant social media companies in history. Today, Facebook is one of the most valuable companies in the world, with over 2 billion monthly active users.
