

Title I

What is Title I?

Title I is a Federal Education Program to enrich the learning of students by building skills in reading and math. This program allows school districts to have additional staff to work in classrooms and individually with students in order to get all students achieving at or above grade level in math and reading.

Why is my child eligible for Title I services?

Your child is eligible for these services because they meet one or more of the criteria that is used to measure student success. These include classroom assessments, daily work, teacher recommendations, parent requests and district/state test scores.

What does this mean in the short run?

In the short run this means your child can immediately receive extra help in reading and math in order to bridge the gaps that stand in the way of grade level success.

What does this mean in the long run?

In the long run our hope is that the Title I program will help students achieve at grade level as soon as possible in order for them to enjoy success throughout their education.
